

## **Fair Housing Help in Any Language**

The Fair Housing Foundation now has the ability to help clients in any language with the use of our third party translation service. While our Housing Counselors have always been able to speak English and Spanish, any client that speaks any other language including Khmer, Vietnamese, French, Korean, Farsi, Japanese, Arabic, etc. can now get assistance with their housing rights and responsibilities. Clients just have to say what language they need assistance in when they call our Fair Housing Assistance Hotline at 1-800-446-FAIR and our staff will get a translator on the line that will assist.
